- We need to charge batteries, have a space with tripods to charge 14 batteries when starting the assembly
- THE QUANTITY OF LIGHTS DEPENDS ON THE SIZE OF THE STAGE SPACE. Talk to the company before signing a contract about this.
- Ch dmx 230 to 315 are occupied with light objects of the company

## MAQUINARY

- German-style space with 3 entrances to the space, see plan
- Tense and static bar where to hang motor at 7m height
- Motor with 2 clamps of 50 diameter, dmx, and direct current

## TECHNICAL CONTROL

The sound and lighting control must be located next to each other. We need 2m to place computers and company materials. It should be an open space where you can feel the atmosphere of the real audience.

## EXTRA INFORMATION

- Changing room and shower and 1 towel
- In case of performing for 2 consecutive days or more, we ask for the option of washing the changing room.
- Table with water for the children participating during the show.

## IMPORTANT NOTES:

1. In the event that the theatre's technical equipment does not match what this sheet requests, we ask that you let us know as soon as possible so that we can evaluate

alternative options.

2. The amount of material and the adaptation of the plot depend on each stage.

Talk to the company before signing a contract.
